English (native) · German (professional working proficiency)

PROFESSIONAL SUMMARY

Full-stack software engineer with 6+ years of experience building scalable web applications and leading cross-functional teams. Proven track record of delivering cloud-native platforms processing 2M+ daily transactions, reducing infrastructure costs by 35% through containerization and CI/CD automation. Passionate about developer experience, mentoring junior engineers, and driving engineering best practices at your company.

KEY SKILLS

Cloud Architecture, Full-Stack Development, Team Leadership, CI/CD Pipeline Design, Microservices, Agile/Scrum, Stakeholder Communication, Technical Mentoring

TECHNICAL SKILLS

Languages: TypeScript, Python, Go, SQL, HTML/CSS

Frameworks: React, Next.js, FastAPI, Express.js

Cloud & DevOps: AWS (ECS, Lambda, RDS, S3), Docker, Kubernetes, Terraform, GitHub Actions

Databases: PostgreSQL, Redis, DynamoDB

Methodologies: Scrum, Kanban, TDD, Domain-Driven Design

PROFESSIONAL EXPERIENCE

Senior Software Engineer

TechCorp GmbH | Munich, Germany | Mar 2022 – Present

- Led the migration of a monolithic Rails application to a microservices architecture on AWS ECS, reducing average response time from 800ms to 120ms and improving system uptime to 99.95%.
- Designed and implemented a real-time event processing pipeline using Kafka and Lambda, handling 2M+ daily events with sub-second latency.
- Mentored a team of 4 junior engineers through weekly code reviews and pair programming sessions, resulting in 40% faster onboarding.
- Championed adoption of Terraform for infrastructure-as-code, managing 50+ AWS resources across 3 environments with zero-downtime deployments.
- Established engineering RFC process adopted by 3 teams, improving cross-team alignment on architectural decisions.

Software Engineer

StartupXYZ | Berlin, Germany | Jun 2019 – Feb 2022

- Built the customer-facing dashboard using React and Next.js, serving 10K+ monthly active users with 98% Lighthouse performance score.
- Implemented automated CI/CD pipeline with GitHub Actions, reducing deployment time from 45 minutes to 8 minutes.
- Developed RESTful APIs in Python/FastAPI for payment processing integration, handling €5M+ in monthly transactions.
- Introduced automated testing practices (unit + integration), increasing code coverage from 30% to 85%.

Junior Developer

AgencyWorks | Berlin, Germany | Sep 2017 – May 2019

- Developed responsive web applications for 12+ client projects using React and Node.js.
- Created reusable component library that reduced development time by 25% across projects.
- Collaborated with UX designers to implement accessible interfaces meeting WCAG 2.1 AA standards.

EDUCATION

M.Sc. Computer Science

Technical University of Munich | 2015 – 2017

Thesis: Optimizing container orchestration scheduling using reinforcement learning

B.Sc. Software Engineering

Humboldt University of Berlin | 2012 – 2015

CERTIFICATIONS

AWS Solutions Architect – Associate — Amazon Web Services (Mar 2023)

Certified Kubernetes Administrator (CKA) — CNCF (Nov 2022)

Professional Scrum Master I (PSM I) — Scrum.org (Jun 2021)

PUBLICATIONS & OPEN SOURCE

- Core contributor to FastAPI — authored async middleware refactor merged in v0.100, reducing average response latency by 12%.

- Co-inventor on patent DE 10 2023 001 234 — "Method for Real-Time Anomaly Detection in Container Orchestration Systems" (filed 2023).

COMMUNITY & SPEAKING

- Speaker at Berlin JS Meetup on "Migrating to Microservices Without Losing Your Sanity" (2023).
- Open-source contributor to FastAPI and Terraform AWS provider.
- Mentor at ReDI School of Digital Integration, teaching web development to refugees (2020 – present).
