German (native) · English (full professional proficiency)

PROFESSIONAL SUMMARY

Software engineer with 6+ years of experience designing cloud-native platforms and microservice architectures. Delivered observability tooling adopted by 3 product teams and reduced mean time to recovery by 40% through automated incident-response pipelines. Combines hands-on Python and Kubernetes expertise with a passion for developer productivity and cross-team knowledge sharing.

KEY SKILLS

Cloud-Native Architecture, Microservices, Platform Engineering, CI/CD Pipeline Design, Observability, Agile/Scrum, Technical Mentoring, Stakeholder Communication

TECHNICAL SKILLS

Languages: Python, TypeScript, Go, SQL

Frameworks & Libraries: FastAPI, React, Next.js, Celery

Cloud & DevOps: AWS (EKS, Lambda, RDS, S3), Docker, Kubernetes, Terraform, GitHub Actions

Databases: PostgreSQL, Redis, Elasticsearch

Methodologies: Scrum, Kanban, TDD, Site Reliability Engineering

PROFESSIONAL EXPERIENCE

Senior Software Engineer

CloudNova GmbH | Berlin, Germany | Mar 2022 – Present

- Architected an observability platform using Prometheus, Grafana, and custom Python exporters, adopted by 3 product teams and reducing mean time to recovery by 40%.
- Led migration of 12 services from EC2 to Kubernetes (EKS), achieving 99.95% uptime and cutting infrastructure costs by 25%.
- Designed event-driven data pipeline with Kafka and AWS Lambda processing 500K+ daily events for real-time anomaly detection.
- Mentored 4 junior engineers through weekly code reviews and pair programming, reducing average onboarding time by 35%.
- Introduced Terraform modules shared across 3 environments, eliminating manual provisioning and enabling zero-downtime deployments.

Software Engineer

StartupXYZ | Berlin, Germany | Jun 2019 – Feb 2022

- Built the customer-facing dashboard using React and Next.js, serving 10K+ monthly active users with 98% Lighthouse performance score.
- Implemented automated CI/CD pipeline with GitHub Actions, reducing deployment time from 45 minutes to 8 minutes.
- Developed RESTful APIs in Python/FastAPI for payment processing integration, handling €5M+ in monthly transactions.
- Introduced automated testing practices (unit + integration), increasing code coverage from 30% to 85%.

Junior Developer

AgencyWorks | Berlin, Germany | Sep 2017 – May 2019

- Developed responsive web applications for 12+ client projects using React and Node.js.
- Created reusable component library that reduced development time by 25% across projects.
- Collaborated with UX designers to implement accessible interfaces meeting WCAG 2.1 AA standards.

EDUCATION

M.Sc. Computer Science

Technical University of Munich | 2015 – 2017

Thesis: Optimizing container orchestration scheduling using reinforcement learning

B.Sc. Software Engineering

Humboldt University of Berlin | 2012 – 2015

CERTIFICATIONS

AWS Solutions Architect – Associate — Amazon Web Services (Mar 2023)

Certified Kubernetes Administrator (CKA) — CNCF (Nov 2022)

Professional Scrum Master I (PSM I) — Scrum.org (Jun 2021)

OPEN SOURCE CONTRIBUTIONS, PATENTS & PUBLICATIONS

- Core contributor to FastAPI — authored async middleware refactor merged in v0.100, reducing average response latency by 12%.
- Co-inventor on patent DE 10 2023 001 234 — "Method for Real-Time Anomaly Detection in Container Orchestration Systems" (filed 2023).

COMMUNITY & SPEAKING

- Speaker at Berlin JS Meetup on "Migrating to Microservices Without Losing Your Sanity" (2023).
- Open-source contributor to FastAPI and Terraform AWS provider.
- Mentor at ReDI School of Digital Integration, teaching web development to refugees (2020 – present).
